

Write with a Quill

Just like your colonial ancestors!

Make your Quill Pen:

1. Gather a long feather or straw.
2. Cut the end at an angle.
3. Cut the point off, so it is straight on the end.
4. Cut a slit into the end.
5. Trim the sides of the feather near the tip.
6. Dip into the ink and begin writing!

Flower Petal Ink:

1. Gather flower petals.
2. Mash them in a bowl.
3. Pour boiling water to cover the petals.
4. Let it sit for 24 hours.
5. Strain the liquid and dip your quill pen in it.
6. Begin writing!

Berry Ink:

1. Mash $\frac{1}{2}$ cup of berries
2. Strain the juice
3. Add $\frac{1}{2}$ tsp of vinegar and $\frac{1}{2}$ tsp of salt
4. Dip your quill pen in and begin writing!
